The hearing in the case of Hiram D. TWO LADS IN JAIL.

Because of Suspicion of Recent Breaks in Vermont.

Morrisville, Aug. 25.—Glendon Tuthill, the 15-year-old son of Mr. and Mrs. Frank Tuthill of Woodbury, who, last spring, kept railroad detectives and post-office inspectors busy for several weeks, and who confessed to burglarizing the postoffice at Stowe and the railroad stations in Morrisville, Wolcott and Hardwick, is behind the bars of the jail in Middlebury, charged with burglarizing the railroad stations at Jeffersonville on the St. J. and L. C. railroad and East Granville on the Central Vermont road. Tuthill and a 15-year-old companion, George Arthur of Elmore, were arrested yesterday morning at the Tuthill home in Woodbury and taken to Middlebury. Young Tuthill was given a prison sentence last spring for his three breaks and placed on probation.

The break at the Jeffersonville station was made last Tuesday night and last Friday night the station at East Granville was entered.

Tuthill and Arthur went to Johnsonville a week ago to attend a camp meeting held in that town Saturday and Sunday. When Tuthill's father heard of the break at Jeffersonville, he notified the sheriff's department that he suspected his son and the arrest of young Tuthill and Arthur was made yesterday morning.

The boys will be questioned concerning a break last week at the Pittsford station on the Rutland railroad. Tuthill, since he was placed on probation, has apparently behaved and though he has been absent at times from his home in Woodbury it was supposed that he had profited by his experience of last spring and turned over a new leaf.

Cast of Nearly 150 to Participate.

The large cast of nearly 150 people has been rehearsing very diligently for the past three weeks under the efficient direction of G. E. Suther, and now, with everything in readiness for the initial performance, everyone is confident that "Fi Fi" will be not only the most pretentious, but the most enjoyable amateur event ever presented in Barre. The tickets, which have been on sale at Drown's drugstore since Tuesday, have been in great demand and crowds are assured for each performance.

Every child and many older persons who, like "Peter Pan," never grow up, often wonder what would happen if the dumb figures in a toy shop were suddenly endowed with life and set free to dance and chatter through the carnival of fun, created out their own whimsical fancies. Remarkable things would take place, to be sure, and for this reason, every person in Barre and vicinity should see "Fi Fi of the Toy Shop" Thursday and Friday evenings at the Barre opera house.

It is all a dream—a dream which "Bonnie," the toy maker's daughter, experiences, when she is overtaken in the woods near her father's home and thrown into a magic sleep, by the "Sand Man." "Bonnie" is the keeper of the toys and it is the most natural thing in the world that she should dream of them.

In her sleep they come to life and begin their revels, with all the abandon imaginable, each vying with the other in a series of bewildering adventures, which carries them to the milky white way through the gardens of fairy land, and back again to earth in time to hurry to their places in the toy shop before the first ray of the morning sun, winning a place in the heart and memories of all who witness the production.—Adv.

to the entire nation that these who have produced the cotton crop shall have a fair opportunity to dispose of it gradually and in an ordinary manner so they may not be forced, through inability to market their cotton gradually, to sell it at sacrifice prices.
The secretary said that one of his chief objects was to create a basis for such enlarged credit in the South that the banks will have ample resources to extend to producers such accommodations that they will be able to carry cotton in warehouses for a reasonable length of time until it can be marketed advantageously.
